

Testimonial

“Master Craftsmen, based in Williamsburg, VA, specializes in classic colonial American designs. We produce items such as pewter trays, boxes, bowls, and cups. I’ve been running this business since 1988 and ordered from Oster way back then. I have always liked working with Oster - they're professional and easy to deal with, and they provide me with the finest quality pewter - no rolling marks, no blemishes. I also like the fact that I can order the smaller amounts I need and still be able to get Oster’s quality. When I receive a big order and am low on certain size, Oster will fill the smaller order without hesitation. That’s important to me as a smaller business.”
